- Crystal Report

**Eswaran and his aspirations ...**

Warren, as he prefers to be called, has been involved in the IT industry for 9 years and IT training for the past 5 years. He continuously seeks to update his knowledge with the latest technology developments. Warren holds on to the principle of willingly sharing his practical projects and consultations experiences with his participants. He always believes that there is no limit to learning. "Learning happens everywhere and it is never ending."

**Working Experiences ....**

Warren worked for various IT companies and Telecommunications company focusing on VOIP. His primary responsibility was application designs and project management. He also did the applications testing and validating as per user requirements. The projects he were involved in helped him build a strong foundation in database design & development and applications programming on various platforms. As part of the developers' team in various projects, he was also involved in proposal writing on design solutions to clients. Besides that, Warren also provided training on the various applications developed by the company.

Subsequently, Warren came out on his own and freelanced, taking on both training, development projects and project management. He was also contracting his services to back to his previous company at the same time.

**Areas of Specialization ....**

Warren's key specializations are database and programming. He has experience in programming using Visual Basic/.NET. He also has wide knowledge in implementing and designing databases using SQL Server.
